

Sexual Health Screening

If you are worried about a Sexually Transmitted Infection or you just want to be screened, we are here to help. We are available to provide advice and tests for STI's. We offer both remote and face to face consultations you can simply go online and book on our website. Please read the information below to help you to decide which tests you want to cover and where you would like to do them.

Appointments are 20 minutes and prices vary according to location. We offer three test types; Mini, Standard and Comprehensive, see the table below for the tests included in each package.

All tests and results are confidential and will be shared with you using the email address that you have provided on your registration.

You can find out more about STI's at the NHS [Patient Info Website](#)

Total Price	£169.00	£281.00	£422.00

*This appointment must be a 30-minute appointment

FAQ's

Can I change the types of tests that I want to take?

We can vary some of the tests, for example the blood tests for HIV, Hepatitis B&C and Syphilis at the Nuffield can be ordered separately, so we do not have to do all of them.

Why is the comprehensive test more expensive at the Nuffield?

We use a different laboratory at the Nuffield to the one at our branch surgery. We have no control over these prices.

Why do I need to book a 30-minute appointment for the comprehensive test at Sawston?

We do not have a healthcare assistant at the Sawston clinic, so the doctor will take your blood test themselves. This takes more time.

Do I need to book in to see a male or female GP?

This is your personal preference. You will always be offered a chaperone for intimate examinations.

What samples are needed?

Mini and standard tests are a vaginal swab from women and a urine sample from men.

For the comprehensive test we need a blood sample, this is for the HIV, Hepatitis and Syphilis tests.

Do my results go on my NHS record?

No. If you want us to send them to your GP please ask, but we will never do this without your permission.

How do I pay for the tests?

You will be sent an invoice within a couple of days and you can pay online.
